10 indicators of not knowing, or charging, your worth:

1. Your client books are full and you don't have space to breathe
2. Your clients are renewing with you consistently
3. Your clients are getting huge life transformations - you know you're doing great work
4. Your clients have no reluctance to paying you, it's an obvious yes
5. You begin to resent the time and energy you put in to your clients for the money you earn
6. You don't have enough money or time, to be the living embodiment of your message
7. You can't afford to actually grow your business
8. Your prices have been the same for the last 2 years
9. You give people discounts and offers all the time
10. Your clients are literally telling you to raise your prices!
